

HANGING WALL RACK

INSTALLATION TIPS

Thank you for your purchase...

Thank you for purchasing the Hanging Wall Rack. Your Rack can be installed on almost any surface including wood, brick, stucco, aluminum, etc. The Hanging Wall Rack allows our Customers the ability to hang inflatable as well as solid, vinyl covered foam floats and certain pool equipment, poles, backwash hoses, etc.

Always use the appropriate mounting hardware suitable for the surface you are mounting to.

We thank you for your purchase. Happy floating!

What's in the box...

- Installation Tips brochure
- 1 Pair of assembled Hanging Wall Rack posts.

Installation Tips

Your new Hanging Wall Rack comes completely glued and assembled. The only thing necessary is for you to find a space wide enough to hang each "post" with room to store the size pool floats you have.

Be sure to use the correct mounting hardware, (not included), for the surface you are mounting to. Brick, for example, requires different hardware than wood. We also recommend you use washers, also not included, for any hardware you decide to use.

Please feel free to call if you have any questions.
